EXPLORE

A Little about Thailand:

Totalling 513,120 square kilometers (198,120 sq mi), [1] Thailand is the world's 51st-largest country by total area. It is slightly smaller than Yemen and slightly larger than Spain. Thailand is home to several distinct geographic regions, partly corresponding to the provincial groups. The north of the country is the mountainous area of the Thai highlands, with the highest point being Doi Inthanon in the Thanon Thong Chai Range at 2,565 metres (8,415 ft) above sea level. The northeast, Isan, consists of the Khorat Plateau, bordered to the east by the Mekong River. The centre of the country is dominated by the predominantly flat Chao Phraya river valley, which runs into the Gulf of Thailand. Southern Thailand consists of the narrow Kra Isthmus that widens into the Malay Peninsula. The diversity of the regions is the most pronounced attribute of Thailand's physical setting.

Diving In Thailand

Thailand is blessed with over 1,000 miles of coastline facing two different bodies of water: one facing east towards the Gulf of Thailand and

one facing west to the Andaman Sea. Along both coasts are hundreds of islands with pellucid, aquamarine waters teeming with marine life including manta rays, dugongs, barracuda, and the occasional whale shark -the world's largest fish!

On the Andaman coast, Koh Phi Phi, a short boat ride from Phuket, is a great place to do some great fun dives, and leopard sharks are frequently spotted there. More advanced divers, or those looking to concentrate their trip on diving in Thailand, can do live aboard dive trips to the Similan or Surin Islands, both National Parks, where Thailand's best visibility and most interesting marine life are to be found.

COME EXPLORE, SHARE, AND DISCOVER....

Thailand is the country in Southeast Asia most visited by tourists, and for good reason. You can find almost anything here: thick jungle as green as can be, crystal blue waters that feel more like a warm bath than a swim in the ocean, and food that can curl your nose hairs while tap dancing across your taste buds. Exotic, yet safe; cheap, yet equipped with every modern amenity you need, there is something for every interest and every price bracket, from beach front backpacker bungalows to some of the best luxury hotels in the world. And despite the heavy flow of tourism, Thailand retains its quintessential Thai-ness, with a culture and history all its own and a carefree people famed for their smiles and their fun-seeking sanuk lifestyle. Many travelers come to Thailand and extend their stay well beyond their original plans and others never find a reason to leave.
