# EXPLORE

## About Farewell Harbour Lodge:

In the heart of the Great Bear Rainforest at the mouth of Knight Inlet, lies an island chain called the Broughton Archipelago renowned not only for its physical beauty but also for its proximity to some of the best Orca and Grizzly viewing on the British Columbia coast. A jewel in this archipelago is Berry Island, most of which lies protected as part of a BC marine conservation area due to its unique natural and cultural history.

Berry Island is also the home of Farewell Harbour Lodge which lies at the epicentre of one of the most biologically active regions on the coast. With eight rooms perched on a bluff at the ocean's edge overlooking picturesque Farewell Harbour and four more waterfront rooms on our floating accommodations below, Farewell Harbour Lodge is ideally located for a wilderness escape to disconnect and recharge! For our Escape Package guests, our comfortable, relaxing west coast inspired lodge becomes a gateway to adventure, a refuge from the urban jungle or both!

In Johnstone Strait, we witness the sea teeming with wild salmon as they try and elude their mighty predator, the blackfish, or Orca, whose northern resident pods congregate in these waters from July to October as the salmon return to spawn in their natal rivers. Throughout our season, we also seek out other marine life such as Humpback whales, Biggs Orcas, Steller

sea lions, Pacific White Sided dolphins, and Dall's porpoises.

In our backyard is the southern Great Bear Rainforest with some of the most spectacular and wild river systems on the BC coast. Grizzlies forage on sedge, roots and berries in the spring, summer and fall in the broad, braided estuaries. Late summer and fall may also offer opportunities to see Grizzlies fishing for salmon. Farewell Harbour Lodge takes guests on daily excursions into the heart of these systems in search of wild bears at home in their natural ecosystems.

In addition to bear viewing and whale watching, we also have 12 other activities that guests can easily add-on to their Escape Package to tailor their holiday for just the right balance between adventure and relaxation.

Choose from bear viewing, whale watching, sea kayaking, heli hiking, Indigenous cultural visits, jet boat excursions, Echo Bay tours, Sointula and Malcolm Island tours, forest bathing, rainforest ecology tours, fishing and more.

# COME EXPLORE, SHARE, AND DISCOVER....

Farewell Harbour Lodge, is located in Farewell Harbour on Berry Island on 30 acres of beautifully forested land. With the exception of the lodge property, Berry Island is within the border of world renowned Broughton Archipelago Marine Park, which is located between Vancouver Island and the mainland of British Columbia with Queen Charlotte Strait to the west and Knight Inlet to the east. Farewell Harbour is a beautiful protected anchorage along the famed inside passage route to Alaska and we may see the twinkling anchor lights of a few yachts moored further out in the bay in the evenings. In fact, Farewell Harbour was named in 1870 by Commander Pender and officers of HMS Beaver, a Royal Navy surveying vessel. It was Commander Pender's last survey stop and his crew had 'fared well' here before also bidding 'Farewell' to the BC coast for the long journey around Cape Horn and back to England.
